The screenshot shows the Twilio SendGrid dashboard in a web browser. The browser's address bar displays the URL `app.sendgrid.com/guide?from=profile&integrate=true`. The dashboard header includes the user's name, "Mohammad Ashfi", and a navigation sidebar on the left with links to Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area features a welcome message, "Welcome, Mohammad!", followed by a guide to get started. A prominent purple banner reads "Send your first emails with Twilio SendGrid". Below this, a section titled "Create a sender identity" explains the need for a sender identity and offers two methods: "Create a Single Sender" (highlighted with a purple button) and "Authenticate a domain instead". An illustration shows an email header with "Your Business" as the sender and "jane.doe@your\_business.com" as the email address. At the bottom, a section titled "Send your first email" includes a lock icon and the text "Please create a sender identity before sending your first email." The bottom left corner shows a "REPUTATION" bar at 100% and a link to "VIEW ACCOUNT USAGE".
